TO CLASSIFY SCHOOLS.

Brumbaugh Educational Measure Passes the House.

ALL FIRE INSURANCE COMPANIES

Are Prohibited From Doing a Guarantee Title Business In Ohio Under Provisions of Ankeny Bill. Other Legislative News.

Columbus, O., March 27.—A number of important bills were passed by the house, one of which was the Brumbaugh bill to classify the schools of the state. The bill provides that the schools are to be regarded as of three classes, elementary, high schools and colleges. High schools are to be divided into three grades. The first is to have a four years' course of 36 weeks each and 16 courses; the second is to have three years' terms of 32 weeks each, and 12 courses; the third is to have a two years' course of 28 weeks each and have eight different courses.

Schools are to be maintained not less than 24 or more than 44 weeks in the year, the time being made optional with the local boards of education. The state commissioner of common schools is given a general supervision over grades and curricula as well as diplomas. A first grade diploma is to be taken for admission to any of the colleges of the state without an entrance examination. A teachers' certificate is made to entitle the holder to take all entrance examinations.

The house passed the Ankeny bill, to prevent fire insurance companies from doing a guarantee title business. Title guarantee and trust companies are permitted to do business in Ohio, but they are taken out of the supervision of the state insurance commissioner and placed in the hands of the state auditor. They must have a paid up capital of \$500,000, and half this amount must be deposited with the state treasurer.

Two bills introduced by Representative Wayne of Hamilton were considered. One limits the age to 14 years where service for summons for witnesses is required. This bill was passed, but one to require that mortgage releases must be acknowledged before a notary was defeated.

Mr. Stage moved to relieve the judiciary committee of further consideration of his anti-pass bill, but the motion was laid on the table on motion of Mr. Price of Athens.

The Patterson bill for the reapportionment of the congressional districts of the state was indorsed at a caucus of the Republicans of the house held Wednesday night. The bill provides for districts as now constituted.

The opposition to the Patterson redistricting bill still has a fighting chance.

In the Senate.

Senator Longworth of Cincinnati introduced a bill which provides that upon the request of any county auditor, the state board of appraisers and assessors, consisting of the governor, auditor of state, treasurer of state and attorney general, shall appoint a board of review to take the place of the city board of equalization and the city board of revision in such city, and to have all the rights and powers enjoyed by these boards in the equalization of the value of real and personal property.

Bills passed in the senate were: S. B., making it permissible for boards of education to have physical culture taught in their schools; S. B., authorizing boards of education to levy an additional tax of one mill for the purpose of paying off their bonded indebtedness. It applies to city districts only, Cincinnati alone being excepted.

Sitting as a committee of the whole, the senate considered Longworth's taxation proposition. His plan is that authority be given to city councils or governing boards of municipalities to issue bonds for various purposes, fixing a limit of 5 per cent of the tax duplicate. The occasion for this plan is the recent decisions of the supreme court in setting aside special acts which heretofore have been accepted as at least passable, if not constitutional. Senator Herrick of Cleveland raised the objection that the Longworth plan fixed no limitation on bond issues for all purposes, and suggested in the course of his argument that a limit of 10 per cent be fixed for all purposes. On motion of Senator Rigin of Madison the chair appointed a committee of five which is to study the question carefully and prepare and submit some general plan which

will cover the question thoroughly. The committee consists of Senators Longworth, Hosca, Patterson, Royer and Herrick.

The senate defeated the Godfrey joint resolution proposing the submission of a constitutional amendment to a vote of the people giving the governor the veto power. The vote was 18 to 13. It is a singular coincidence that the two houses were considering similar resolutions at the same time, and that both were defeated, the opposition to Mr. Price's resolution in the house being much more pronounced than was that of the senate to the Godfrey resolution. The vote on the Price resolution was 45 yeas to 40 nays.

RHODES OBSOLES.

Preparations For State Funeral of the South African Financier.

Cape Town, March 27.—The preparations for the state funeral of Cecil Rhodes, which will take place here April 2, are already in progress. Flags are half masted everywhere. Those who attended the sick bed say Mr. Rhodes continually sorrowed over the fact that he left so much unaccomplished. "So little done, so much to do," was an expression which he used more than once. During Mr. Rhodes' illness all kinds of novel means were utilized to counteract the trying heat. Boxes of ice were let into the roof of the seaside cottage at Muizenberg, where he died. Punks were continually kept in motion and extra windows were cut in the walls.

Memorial Service in London.

London, March 27.—A memorial service in honor of the late Cecil Rhodes will be held in St. Paul's cathedral April 10.

Guilty of Peonage.

Tallahassee, Fla., March 27.—A jury in the United States court here returned a verdict of guilty against S. M. Clyatt, a wealthy turpentine operator, who was charged with a violation of the peonage laws of the United States. The evidence at the trial was to the effect that Clyatt secured in Georgia several negroes and coming to Florida brought about their arrests. The negroes were then taken, it is alleged, to Clyatt's turpentine farm, near Waterloo, Ga., where they were made to work until a debt they were charged with owing, had been paid. The case was brought by the United States government and this is believed to be the first time the federal court has ever attempted to enforce the statute against peonage.

Old Sores Raked Open.

London March 27.—General Buller has exhausted the patience of his most loyal friends. Comment among military men and in the press runs heavily against him for reverting to the Spion Kop affair in his correspondence with Mr. Balfour. Henry Harman has managed to bring out so many lively controversies in parliament that the old stagers are solemnly discussing whether experienced journalists with a fatal instinct for news ought to be eligible to election to the house.

Desire an Eight-Hour Day.

Youngstown, O., March 27.—The Furnacemen's union will meet here to arrange a date on which to make a demand on the blast furnace operators for an 8-hour day instead of 12 hours. All the blast furnace workers in this valley are thoroughly organized and they are fairly organized throughout the country. The operators are said to be favorable to granting their demand, but hesitate to do so account of the scarcity of men to fill in the extra turn.

A Severe Blow.

Fort Worth, Tex., March 27.—The order issued by United States Revenue Inspector Cobb at Vinita, I. T., which prevents the importation of Texas cattle into the Cherokee nation will be a severe blow to many cattlemen of this state who have already arranged to take thousands of cattle into that nation for grazing. It is estimated that more than half a million head were to go to that country beginning next month. The Santa Fe was to handle nearly 200,000 head alone.

Club House For Lambs.

New York, March 27.—A new clubhouse has been planned by the Lamb's club. It will contain a capacious theater and banquet hall and the actors who have been heretofore dependent on theatrical managers for a stage upon which to hold their famous gambols, will then be independent.

New York, March 27.—Reports from Brussels and The Hague continue to reveal the anxiety of the Boer delegates to have it understood that peace can not be made without their knowledge and consent.

INQUIRY IS ORDERED.

Into the Secret Report of an Agent of the Danish Government.

BRIBERY IN THE SALE OF ISLANDS.

Upon the Adoption of Mr. Richardson's Resolution by Congress a Committee is Appointed to Investigate the Charges.

Washington, March 27.—At the opening of the session of the house, Mr. Richardson (Tenn.), the minority leader, offered as a matter of privilege, a sensational resolution for the appointment of a committee of five to investigate the charges, made by Walter Christmas, a semi-official representative of the government of Denmark, in a secret report to his government, in which it was to appear that he was to receive \$500,000 of the purchase money for the sale of the Danish West Indies for bribing newspapers and members of congress. The resolution was very long and detailed and its reading created great excitement on both sides of the house.

Mr. Richardson modified his resolution so as to specify that members of the house were charged with being bribed and Speaker Henderson ruled that it was privileged. This brought the matter before the house for consideration. The house unanimously adopted the Richardson resolution for an investigation of charges in connection with the purchase of the Danish West Indies and Speaker Henderson appointed Representatives Dalzell, Hitt, Cousins, McCall, Richardson, Dinsmore and Cowherd as the investigation committee.

The names of Abner McKinley, brother of the dead president and other prominent men were used by Christmas in describing the negotiations of the deal.

In the report Mr. Christmas said among other things that he had as his special assistants "C. W. Knox, an intimate friend of Senator Hanna and a Washington lawyer named Richard P. Evans, who represented Mr. Gardner and his friends in the house."

JOSEPH COX

Acquitted of Murder by Twelve Peers at McArthur.

McArthur, O., March 27.—After being out all night, the jury rendered a verdict of acquittal in the case of Joseph Cox, charged with murder in the first degree. Cox had killed Raymond Ratcliff in a sensational manner at a country church, Jan. 26 last, because Ratcliff assaulted him for persisting in paying attention to Ratcliff's sister after repeated warnings. The parties were both school teachers and Ratcliff's wife was a sister of Cox. The case attracted wide attention. The Hon. Charles H. Grosvenor, congressman from this district, assisted the prosecution. Albert Douglass of Chillicothe was one of the attorneys for the defense.

Vetoed by Cummins.

Des Moines, Ia., March 27.—Governor Cummins announced his veto of the Molesberry bill, better known as the "merger measure." The bill removes the limit of indebtedness per mile that may be contracted by railways running through Iowa. It has been persistently claimed by those opposing the bill that it was introduced and pushed through by the Burlington railway's lobbyists for the purpose of enabling that corporation to take over the Northern Securities company's stock in case the latter loses its case in the federal courts.

Washed Their Feet.

Vienna, March 27.—Emperor Francis Joseph performed at the Hofburg, the traditional ceremony of washing the feet of 12 aged men. The nobility and the diplomatic corps, including the United States minister, Robert S. McCormick, and others, witnessed the ceremony, after which his majesty hung bags of money on the necks of the participants, whose aggregate age was 1,070 years. The old men were ancient Dutch costumes. The ages of 12 women recipients of the imperial Maundy gifts aggregated 1,182 years.

Scranton, Pa., March 27.—Fire at Peckville, this county, devastated the business section of the town, burning over 12 blocks on Main street and the same distance on Depot street. Among the buildings destroyed are Masonic hall, Clark Brothers' stores, Arnold stores, Bloes' drug store, Watkins' drug store, Roberts Brothers' store, two hotels and many other smaller shops, stores and dwellings. The fire originated in a barn. The loss is \$100,000.

PATRIOT TALKS.

Murderer of Millionaire Rice Discusses Verdict of Jury.

New York, March 27.—Albert T. Patrick, who was convicted of the murder of William M. Rice, had a consultation with his father, Colonel Patrick and his counsel from Chicago, Mr. Turner. Patrick retained his composure throughout the conference and conversed cordially with his father and counsel. In discussing his case, Patrick said: "No one in the court room was more surprised at that verdict than myself. As a lawyer I do not see how upon the testimony given, the verdict could have been found. I do not believe, had Recorder Goff and Assistant District Attorney Osborne known what effect their addresses would have upon the jury that they would have made them in the terms they did."

After expressing the belief that both the recorder and Assistant District Attorney Osborne were astonished at the verdict, Patrick said: "I believe the jury to be composed of honest men. I have no reason to believe otherwise. I practically selected the jury myself, but this I do know, every witness, every one connected with me who could be bribed, cajoled or influenced was approached and if influence could possibly be used upon any member of the jury, I believe it was used. Now I do not believe for a moment that this verdict will stand. It will go to the court of appeals, where the questions of law and fact will be passed upon."

President Castro Is Active.

Willemstad, Island of Curacao, March 27.—The Venezuelan revolution, according to advices received here, has not realized what it promised last week. The government forces have re-occupied Port Lamar and Juan Griego, on the island of Margarita, and still hold Carupano, Cumana and Barcelona, all in the state of Bermudez. A force of 1,000 revolutionists under Domingo Monages, which has been besieging Barcelona, has retreated before the government forces. General Riera with 1,200 men is still in the state of Falcon trying to effect a junction with General Montillas' revolutionary forces, who are estimated to number 500 men. President Castro appreciates the real danger of the situation, and manifests astonishing activity and intelligence. The immediate success of the revolution is looked upon here as being problematical.

Ran Into a Train.

Indianapolis, March 27.—As hose company No. 16 was responding to a fire alarm the horses dashed into a Monon passenger train which was running at a high rate, at Sixteenth street and the railroad tracks. One horse was killed, the wagon was smashed and the firemen had a miraculous escape. Lake Erie passenger train had just passed and the Monon, following, caught the wagon. It is claimed that the Monon and Lake Erie passenger trains, which run on parallel tracks, are in a habit of racing, and to this the accident was due.

Not a Good Thing.

Cripple Creek, Colo., March 27.—John Hays Hammond, the well-known mining engineer and general manager of Stratton's Independence mine, has sent to the London directors the following cablegram: "Recent developments have confirmed last report. Regret to report latest developments unfavorable." In reply to an inquiry Mr. Hammond said, "Yes, it's true. I have cabled London to the effect that the ore reserves are exceedingly lower, that the body of the mine is looking very bad."

Powderly Will Get a Job.

Washington, March 27.—Commissioner General of Immigration Powderly, whose term of office expires soon, will be tendered some other position in the government service. The statement came from an authentic source that the president has decided to provide for him elsewhere. A number of Mr. Powderly's friends have talked with the president in his behalf and pleaded extenuating circumstances in many of the matters of which he has been criticized.

Soldiers Want Money.

Frankfort, Ky., March 27.—Suit was filed by Captain Horace Cochran of Maysville, for a mandamus to compel the governor and adjutant general to approve a claim of \$7,000 for service of the Mason county company of the state guards in guarding Governor Taylor and other state officials during the political trouble of 1900. The service was rendered between Feb. 6 and May 1 of that year and if this claim is upheld by the courts, the state will have to pay all the soldiers camped here at that time, about \$45,000.

THE COAL OPERATORS

And Representatives of United Mine Workers' Association Meet.

NOTABLE CONFERENCE IN NEW YORK.

The Conciliators of the National Civic Federation Secure a Meeting of Opposing Elements in the Coal Industry.

New York, March 27.—Brought together by the conciliators of the National Civic Federation, the leaders of the United Mine Workers' association and four of the largest coal operators met here in secret session and discussed their differences.

The Mine Workers were represented by John Mitchell, president of the United Mine Workers' association and three district presidents of the union, Thomas Nicolls, John Fahay and Thomas Duffy, and the operators who met them were W. H. Tuesdale, president of the Delaware, Lackawanna and Western; E. B. Thomas, chairman of the board of the Erie Railway company; George S. Baer of the Reading railroad, and Robert Olyphant, president of the Delaware and Hudson company. The conference was arranged by a sub-committee named by the conciliation committee of the National Civic Federation, after that body had listened to the representations of John Mitchell and the men who came with him from Shamokin. On the sub-committee were Senator Hanna, Oscar Strauss and Frank Duncan and when the general committee adjourned they called on the coal operators.

No statement as to the understanding under which the operators agreed to go into the conference was made public. It was understood, however, that Senator Hanna and his fellow-committeemen invited the operators in behalf of the National Civic Federation and that nothing specific was said as to the demands of the miners or as to possible recognition of the union involved in conferring with its representatives.

The meeting was held at the Church mission house. The mine workers were on hand first. After them came a number of the conciliators, headed by Senator Hanna and Oscar Strauss, and then came the coal operators.

Just before the meeting began Senator Hanna came to the door and to the newspaper men said: "Messrs. Thomas, Baer, Tuesdale and Olyphant have come here at our invitation to meet the representatives of the United Mine Workers and discuss the situation with them. I cannot say what will be done or what the conference will result in. They will probably be together for an hour and a half. Did I see J. Pierpont Morgan yesterday? Certainly I did, but I did not mention this matter to him. It is simply not true that we discussed the coal situation."

Miners and Operators Agree.

Altoona, Pa., March 27.—The bituminous coal miners and operators got together and agreed to continue the scale another year. It calls for a 60-cent pick mining rate and a 10-hour day. The 10-hour day is one of the important features, as it practically eliminates the 8-hour day from the anthracite field. The settlement, it is said, has the approval of the national officers.

International Money Orders.

Washington, March 27.—The post-office department announced the completion of important arrangements for the extension of the international money order business of this government. An agreement has been reached with the kingdom of Greece whereby money orders will be exchanged between the two countries. In addition the post agent of the United States at Shanghai, China, has been authorized to issue domestic money payable at any money order office in the United States, Canada, Cuba and the Philippines and at any money order offices in the United States may be procured, drawn on the postal agency at Shanghai, China, which thus is substantially made a money order office of the United States.

Cincinnati, March 27.—After spending two days in hearing evidence from representatives of the Brotherhoods of Engineers and Firemen and of the United Brewery Workmen on the lock-out of the breweries of Cincinnati, Covington and Newport, President Samuel Gompers of the American Federation of Labor was in conference with the proprietors of the breweries, but no decision was reached.

It's to be hoped that Havana gang will take their doses with better grace than Captain Carter took his. They may, though, use that stolen money to pay their way out

Why cannot a company be organized in Maysville to build a trolley railway to Mt. Olivet? The bonds for such an enterprise it is thought could be floated in New York as soon as the right of way is secured. Such a road would be of great value to Maysville. If our people would put their money in an improvement like that, instead of sending it out of the city in all sorts of wild cat schemes, it would not only pay them, but make Maysville a booming city.

MAYSVILLE with her splendid plow works, cotton mills, saw and planing mills, pulley works, flour mills, tobacco and cigar manufactories, four banks with a quarter of a million of idle money in their vaults, backed by the richest agricultural region in the world, with nearly 400 miles of completed turnpikes in the county, her unequalled waterworks, her street railway, gas and electric plants, and capital transportation facilities offers a profitable outlook for other manufacturing plants.

JUDGE PAYNTER

Likely to be Renominated in the Sixth Without Opposition.

[Enquirer.]

Judge Thomas H. Paynter, of the Kentucky Court of Appeals, had a most gratifying visit in Covington and Newport Wednesday.

Judge Paynter is spending his judicial vacation in calling on the Democratic leaders of his district, with his candidacy for renomination in view. Wednesday he was assured by every man he met that he could count upon their support. Among them were State Central Committeeman Joseph W. Pugh, Judge John T. Hodge, of Newport, and Judge John M. Lassing, of Boone County.

It has been believed probable that Judge Paynter would have no opposition for a renomination, and time seems to confirm the belief.

Asked if he expected to have any opposition for the nomination, he said: "No. From present indications I don't think I will. The convention will probably be held the middle of May, but the exact time and place have not yet been decided upon."

With reference to Judge Wright's candidacy on the Republican ticket Judge Paynter said that once having secured the nomination he did not have any fears as to being elected.

Hour For Evening Services Changed.

At the meeting of the Pastors' Union this week, the hour for the Sunday evening service in the various churches was changed from 7 to 7:30 o'clock, beginning next Sunday.

PERSONAL.

Easter Styles

New silks, new dress goods, new wash stuffs, new buttons and trimmings, new laces and embroideries, new gloves, new corsets, a very atmosphere of newness surrounds you here. The spirit of Spring and Easter pervades the entire store. Take one item among the smallest accessories of dress, turnover collar, and judge from that the liberal selection we have provided in bigger and more important needs.

Turnover Collars.....

FOR 5c—Pretty embroidered Collars, wide or narrow, pointed or round scallop.
FOR 10c—Dainty, embroidered sheer linen Collars, straight or scalloped. Also natural color linen with white embroidery.
FOR 15c—Four styles in embroidered Collars, all pretty and new.
FOR 25c—An immense line at this popular price. Graduated scallops, each embroidered with fleur-de-lis.
Broad batiste Collars with narrow edge embroidered with colored French knots.
Handsome point lace, straight, pointed or round Collars.
Pure linen, hemstitched Collars ornamented with colored French knots.
Batiste hemstitched Collars with brier stitched border.
Appliqued fllet Collars, very handsome and new.
Irish crochet Collars in beautiful patterns.
Arabian lace Collars in rich, deep cream.
FOR HOME WORK—Both made and unmade Collars in beautiful but simple embroidery patterns, 12½c, 20c, 25c. A full line of colors in wash silks and crewels.

Easter Gloves....

The majority of our customers, for some occult reason, prefer dressed to undressed kid gloves, though Fashion, the fickle dame, has never proclaimed an ultimatum against the latter. We have a complete line of sizes in Undressed Kid Gloves in five colors, gray, castor, tan, white and brown. Only five colors—no black. As we cannot interest you at the regular price—\$1—we have reduced it exactly half. The gloves are perfect—flexible, evenly dyed, neatly stitched, two clasp. They are not old-fashioned, nor old stock, we have had them just long enough to learn that, "all things being equal," you prefer glaze to suede kid, therefore this price concession. We safely venture, there is not a woman who sees these \$1 Gloves for 50c who will not own a pair.

EDUCATIONAL WORK.

Few People Realize What the Y. M. C. A. is Doing Along This Line For Young Men.

The Young Men's Christian Association of Maysville will close up a successful winter's work in the night educational classes. Classes in short hand, type writing, bookkeeping, commercial arithmetic and penmanship have been conducted with a total enrollment of thirty-one young men. Three teachers have had charge of the classes. Four young men will take the examination given by the International Committee of the Y. M. C. A. This year's work has only been an opening of what can be done for young men educationally. The young men of Maysville cannot expect to secure better positions at higher wages unless they are prepared for the duties devolving upon them. Many have not known of the work being done by the local association in night classes.

Next fall on Oct. 1st the fall term of the night school will open, with many classes added. Jan. 1st the winter term will open and about the middle of March a short spring term.

Why should not the young men of Maysville be given an opportunity to help themselves? Many boys leave school at about fourteen years of age and are put out into the world handicapped for life. Why should not the business men of Maysville be interested in the association when it is trying to help young men in their employ?

The following unsolicited editorial appeared in the Boston Transcript, June 8, 1901: "Few people outside those immediately interested realize the growth and extent of the educational work carried on by the Young Men's Christian Association, amounting, as a matter of fact, to the functions of a national university of practical teaching, with its branches in every city of the country. Standard courses, it seems, are maintained by international examinations. Branches from grammar school to university find legitimate place. Pupils are of all conditions and classes of men. With fifty subjects taught, the courses are certainly adapted to the special needs of the associations."

"It is very significant that there are 27,000 men spending on an average of forty-eight hours of recitation each season, or double the number of ten years ago. Last year, it seems, 1,520 certificates were won by men in 115 different associations, the movement having so developed in organization and standard of work done that 110 colleges and universities recognize these certificates for matriculation. The board of examiners certainly presents an array of names that should command confidence, including Hamilton W. Mabie, Professor Adams of Johns Hopkins University, Professor Hodge, of Clark's University, Professor Beman, of the University of Michigan, Professor Thomas, of Columbia University, and a dozen others of equally high repute in educational work."

"Undoubtedly the work, so carefully arranged and so ably conducted, has proved a great stimulus to working young men in directing their thoughts to self-culture and to higher mental attainments. It is easy to believe that thousands of young men occupy good positions which they never could have attained but for the evening classes of the Young Men's Christian Association."

Gov. Beckham vetoed the Colson bill for the classification of cities and towns. The chief objection to the measure was that by its provisions the cities of Versailles, Princeton and Nicholasville were changed from the fourth to the fifth class. This was due to a mistake in the engrossment or enrollment of the bill.

The Endeavor societies of the city are asked to unite in a sun rise prayer meeting next Sunday morning at 6 o'clock in the chapel at the Christian Church. All members of the societies are urged to be present. Members of the Epworth League are invited to join in the service. Cordial welcome to the public. Elder R. E. Moss will be the leader.

Kentucky just now is attracting prospectors from all over the land. The wells already sunk prove it a very rich oil producer. MONEY INVESTED NOW MAY DOUBLE OR QUADRUPLE IN LESS THAN A MONTH.

Our holdings consist of about 5,000 acres in Wayne County, near the great Sunnybrook field, about 6,000 acres in Lincoln County, and 600 acres in Licking Valley in Bath County, close up to Ragland. Our first two wells near Ragland are producers. We have started to drill in all three counties, and expect to strike oil in every well. We are still acquiring valuable lands in addition to those already secured, and lying in close proximity to the greatest developments in the State.

A limited amount of the treasury stock will be sold, at \$5 per share, par value of shares \$10 each. This stock will, we confidently believe, be selling for par in thirty days.

QUIET HOME WEDDING.

Miss Anna E. Goff and Mr. Joseph H.
Brown Married Wednesday Afternoon
at Dover.

[Dover News.]

A pretty but quiet little home wedding occurred at the handsome home of Miss Anna E. Goff Wednesday afternoon when she was led to the sacred altar by Mr. Joseph H. Brown.

Miss Goff is a daughter of the late Mrs. Susan Goff and is a highly respected and popular maiden lady of fifty summers. The groom, aged sixty-seven, is the father of Dr. Robert A. Browne, and recently engaged in the lively business at Maysville. This is his third matrimonial venture, and he is certainly to be congratulated upon the choice of Miss Goff for his future helpmeet.

No invitations had been issued, but the commodious home was filled by admiring friends and well wishers.

The curtains were drawn and the soft lights from beautiful lamps added much to the beauty of the surroundings. Promptly at 3 o'clock the bride, leaning upon the arm of the groom, entered the parlor where they were met by Elder R. L. Cartwright, who, in a few well chosen words, pronounced the happy couple husband and wife.

The bride was beautifully attired in a dark navy blue gown made over blue silk and trimmed with cream applique.

The presents were numerous and costly, showing the high esteem in which the fair bride was held by her many friends.

After receiving congratulations from the many friends, Mr. and Mrs. Brown left for Maysville, their future home. May their happiness be complete.

John White has sold to Clarence D. and Tillie White, a house and lot in the Sixth ward for \$1, love and affection.

Wm. McNutt has purchased of W. F. Dugan the two-story brick residence known as the Patty property in Dover. Price \$600.

The State Board of Assessment next week will fix the value of the intangible property of railroads. The franchise tax will be based on this.

Mary Nelson and Georgia Nelson have sold to Wesley Viceroy twenty-seven acres, two roads and four poles of land on Lawrence Creek for \$597.05.

Under the new law county officials can receive no pay for holding examining courts until after the accused parties are indicted by the grand jury.

DEATH'S HARVEST.

Louis Poth Succumbs to an Attack of Spinal Meningitis—Henry S. Valentine Dies of Appendicitis.

Mr. Louis Poth, whose serious illness was mentioned this week, died Thursday at 2 p. m. at his home 716 East Second street. His health had been failing since last fall, and for the last four weeks he had been confined to his home, his trouble finally developing into an attack of spinal meningitis, which caused his death, at the hour named.

Mr. Poth was a son of Mr. Adam Poth, and was forty-eight years old the twenty-ninth of last January. He was an industrious citizen, honest and upright in all his dealings. His wife, who was Miss Rosa Ryder, survives. He leaves no children.

The funeral will take place Sunday at 2 p. m. at the residence. The service will be conducted by Rev. Dr. Molloy, assisted by Rev. F. W. Harrop. Burial in the Maysville Cemetery.

HENRY S. VALENTINE.

The remains of Henry S. Valentine were brought here Thursday afternoon from Cincinnati and taken to the home of his aunt, Mrs. R. K. Hoelich, on East Second street, where the funeral service will be held to-morrow morning at 11 o'clock, Rev. Dr. Boyet officiating. Interment in the Maysville Cemetery.

Mr. Valentine was sixteen years old, and was a son of Mr. and Mrs. William Valentine, who reside near Plumville, and a grandson of Mr. Stephen Valentine. Last Sunday night he was stricken with appendicitis, and was later taken to the Good Samaritan Hospital at Cincinnati, where he was operated on Wednesday afternoon in hopes of saving his life. The disease, however, had progressed too far and he died Thursday morning at 2 o'clock.

SOLDIERS WANT PAY.

Captain Horace Cochran Brings Suit To Compel Payment of Claims Amounting to \$7,000.

FRANKFORT, Ky., March 27.—Capt. Horace Cochran, of Maysville, filed suit in the Franklin Circuit Court this morning for a mandamus against the Governor, Adjutant General and the Auditor to compel them to approve claims of the Taylor soldiers of January, 1900, amounting to about \$7,000.

Captain Cochran and his company were on duty two or three months during the troubles following the assassination of Gov. Goebel.

HUSBAND MISSING.

Indianapolis Woman Returns From a Visit in Maysville to Find Her Husband Missing.

INDIANAPOLIS, Ind., March 26.—Mrs. George Britton left two weeks ago on a visit to relatives at Maysville, Ky., leaving her husband not feeling well, but anxious that the trip be not deferred.

Several letters unanswered alarmed the wife and she returned home last night, only to find her letters under the door, where deposited by the mail carrier, and no trace of her husband, who has not been seen since the day of departure. His absence is unaccountable.

The funeral of the late James H. Sallee Thursday afternoon was attended by a very large crowd, the Christian Church where the services were held being filled. The front of the pulpit platform and the casket were covered with beautiful floral offerings from friends and the orders to which he belonged. "Lead Kindly Light" and "Come Ye Disconsolate" were sung by the choir, and "Beautiful Isle of Somewhere" was touchingly rendered by Dr. Smoot. In his brief remarks Elder Hall paid high tribute to the deceased as a Christian citizen. The bar attended the services in a body. A large concourse of friends followed the remains to the cemetery at Germantown.

The preliminary work of the State Board of Equalization has about been completed, and early next week the counties whose assessment has been increased will be notified and will be given an opportunity to appear before the board and discuss the matter. As is generally the case, only a few counties in the State have not been raised over the work of the local Assessor. The hearing of county delegations will consume a month.

STONE THROWING

By Reckless Boys Costs \$250,000 Annually.

[Leslie's Weekly.]

A propensity to throw stones, regardless of consequences, has been one of the earliest signs of natural depravity among men since time began, and we fear must continue that way until the millennium. In the era when bad boys are no more and stones are confined to their proper and legitimate uses. Anyway, the mischief wrought by this vicious and execrable habit looms up into serious proportions when the figures are given out by plate-glass insurance men showing that it costs not less than \$250,000 a year to make good the losses thus caused by reckless boys in this country alone. In view of this showing we can appreciate the sentiments of the President of one of these insurance companies who wrote to a New York Magistrate the other day, complimenting him on his severity in imposing heavy fines on several youthful stone-throwers. With stone-throwing costing \$250,000 a year, carelessness in setting fires costing hundreds of millions more, and needless accidents causing immense sacrifice of property, the good people have many bills to foot which ought not to be theirs.

Sousa Comes To-day.

Sousa and his great band are in town to-day to give a concert that has been eagerly anticipated. The band comes in its entirety, with the same personnel of artist musicians that has distinguished the organization for years above all others; with the same soloists who won favor with the band in Europe; with notable additions to a library unsurpassed in its treasures of military band literature; all under the direction and the inspiration of the master musician at the head—John Philip Sousa.

The concert begins promptly at 2 o'clock this afternoon, at Washington Opera House.

What does it profit a woman if she gain the whole world of knowledge and lose her own health? Young women students, and school teachers, eager, ambitious, and full of energy, very often neglect their health in the struggle to gain education. They eat insufficient food, and at irregular hours, they allow irregularity of the womanly functions to be established, and the result is that they become chronic invalids with all their education practically worthless. There is a plain road back to health for such as these, marked by the feet of thousands. It is the use of Dr. Pierce's Golden Medical Discovery for diseases of the stomach and digestion and nutritive organs, and Dr. Pierce's Favorite Prescription for diseases of the delicate organs of womanhood. A cure so certainly follows the use of these remedies that one of hundreds of thousands who have tried the treatment, ninety-eight in every hundred have been perfectly and permanently cured. Constipation, with its calamitous consequences, which is a common ailment of students, can be entirely cured by the use of Dr. Pierce's Pleasant Pellets.
